

CLIENTVERSE

COMPLETE MASTER PLAYBOOK

INTERNAL USE ONLY — FOUNDER + STAFF REFERENCE

Version 2.0 | 2026 | Veteran-Owned | Charlotte, NC

SECTION 1 — CLIENTVERSE PLATFORM TIERS

GHL is the engine. Clients never see GHL. They see ClientVerse. Do not mention GHL in any client-facing material.

The 4 Tiers

Tier	Price	What's Included
COMMAND	\$197/mo	CRM · Pipeline management · Missed call text-back under 60 seconds · AI lead response · Calendar + appointment booking · Proposals · E-sign · Automated follow-up · Embedded funding access (Lendio, Relay, BlueVine)

AI Training Service (Outsource Model)

You are the consultant who delivers the AI Training strategy. Execution is outsourced. Here is the exact model:

- YOU: Show up for the strategy session, deliver the audit using the C.L.A.R.I.T.Y. Framework, sign off on the deliverable
- VA via Upwork: Runs discovery call using your standardized questionnaire script. Fills in all answers. Costs \$50–100 per engagement.
- GHL-Certified Contractor via Upwork (\$20–40/hr): Executes the technical GHL setup — pipelines, automations, agent configuration, staff walkthrough
- Vets in Tech (vetsintech.co): Executes security setup items — 2FA, data protocols, staff phishing training
- You never touch the technical build. You own the relationship, the framework, and the signature.

SECTION 2B — CLAUDE + GHL MCP — NEW BILLABLE SERVICES

GoHighLevel launched an official MCP server in late 2025. Claude now connects directly to GHL without Zapier or middleware. This unlocks 5 new billable services 95% of agencies don't know exist yet. You are early — the window is open now.

What MCP Actually Is (Internal Reference)

MCP (Model Context Protocol) is an open standard from Anthropic that lets Claude connect directly to your GHL account using a Private Integration Token. Claude can read contacts, pipelines, conversations, calendars, tags, custom fields — and write back to them — all through plain English instructions. No Zapier. No Make. No middleware. Direct two-way connection.

The official GHL MCP server covers 39 tools. A community-built extension covers 269+ tools including invoices, payments, social media, and ecommerce. Setup takes under 15 minutes.

This is NOT GHL's built-in Conversation AI or Voice AI. Those are pre-built automations. Claude with MCP is an intelligent agent that can reason, analyze, and act on your entire CRM on demand using plain English commands.

The 5 New Billable Services

Service Name	Client-Facing Label	Monthly Price	Your Cost to Deliver	Margin
AI CRM Management	"We actively manage your pipeline every week using AI — stalled leads flagged, dead contacts cleaned, pipeline stays accurate"	\$397/mo	\$30–60/mo VA monitoring time	~\$340/mo per client
AI Performance Reporting	"Every month: a plain-English report showing what's working, what's not, and what to do next — no dashboards, no spreadsheets"	\$297/mo	\$15–30/mo Windsor.ai cost share + VA	~\$250/mo per client
AI Operations Management	"Weekly and monthly AI-powered reviews of your entire account — lead scoring, follow-up gaps, appointment no-shows, campaign performance"	\$597/mo	\$50–100/mo VA oversight + tool costs	~\$500/mo per client
Cross-Channel Intelligence Report	"Your CRM, Google Ads, and Meta Ads analyzed together — monthly insights showing which campaigns actually drove closed revenue"	\$497/mo	\$30–60/mo Windsor.ai + VA	~\$420/mo per client
CRM Audit + Cleanup	"Full account audit — duplicate contacts, dead pipelines, broken automations, lost leads — written report delivered with every fix applied"	\$797 one-time	\$50–100 VA time	~\$700 per engagement

How Each Service Is Delivered

AI CRM Management — \$397/mo

Client-Facing Pitch: "We actively manage your pipeline every week using AI. Stalled leads get flagged. Dead contacts get cleaned. Your pipeline stays accurate so you never lose a deal to disorganization."

- Tool: Claude connected to client GHL sub-account via MCP Private Integration Token
- Who delivers: VA runs weekly review using Claude prompts against the client account — flags stalled deals, removes duplicates, updates tags
- Your role: Review VA output once per week — 10 minutes. Approve changes. Sign off on monthly summary.
- Setup: 15 minutes per client account to configure MCP connection. One-time.

- Where it fits: Available as add-on at all tiers. Position as "your pipeline never falls apart again."

AI Performance Reporting — \$297/mo

Client-Facing Pitch: "Every month you receive a plain-English report showing exactly what's working, what's not, and what to do next. No spreadsheets. No dashboards to learn. Just answers."

- Tool: Windsor.ai pulling GHL data + ad platform data → Claude analyzes and writes the report in plain English
- Who delivers: Windsor.ai connector automates data pull. VA prompts Claude to generate report. You review before sending.
- Your role: 15-minute review and approval each month per client.
- Output: A 1–2 page PDF or GHL email with the month's numbers, what drove them, and 3 recommended actions.
- Where it fits: Add-on for any client running ads or wanting monthly performance visibility.

AI Operations Management — \$597/mo

Client-Facing Pitch: "We run a set of weekly and monthly AI-powered reviews against your entire account — lead scoring, follow-up gaps, appointment no-shows, campaign performance. It's like having an operations manager who never misses anything."

- Tool: Claude + GHL MCP running against a set of standard operating procedures you build once
- Who delivers: VA executes weekly SOP prompts against the client account. Monthly summary compiled and delivered.
- Your role: Build the SOPs once (templates you reuse across all clients). Review monthly summary per client — 20 minutes.
- What the SOPs cover: Pipeline health check, lead response time audit, missed follow-up identification, appointment no-show rate, campaign open and click rates
- Where it fits: Premium add-on. Position as the service that makes Commander tier clients feel like they have a full operations team.

Cross-Channel Intelligence Report — \$497/mo

Client-Facing Pitch: "We connect your CRM, Google Ads, and Meta Ads into one AI-analyzed view. Every month you see which campaigns actually drove closed revenue — not just clicks or impressions."

- Tool: Windsor.ai connecting GHL + Google Ads + Meta Ads → 325+ metrics → Claude generates the analysis
- Who delivers: Windsor.ai handles data connection automatically. VA prompts Claude to generate the monthly cross-channel report.
- Your role: 15-minute review and approval. Send to client with your logo on it.
- Output: Monthly report showing cost per acquired client, which ad campaigns drove actual closed deals, and what to scale or cut.
- Where it fits: Add-on exclusively for clients running paid ads. Pairs perfectly with your Google + Meta Ads Management service.

CRM Audit + Cleanup — \$797 one-time

Client-Facing Pitch: "We go through your entire system and fix what's broken — duplicate contacts, dead pipelines, broken automations, leads that fell through the cracks. Delivered as a written report with every fix applied."

- Tool: Claude connected to client GHL via MCP — reads full account, identifies all issues
- Who delivers: VA runs Claude audit prompts across the full sub-account. Documents findings. Applies fixes.
- Your role: Review findings report before delivery. Sign off. 20 minutes.
- Output: Written audit report listing every issue found + confirmation that all fixes were applied to the account.
- When to sell: At onboarding for any new client with an existing GHL account. Also a standalone service for non-platform clients.
- Upsell path: Audit + Cleanup almost always reveals gaps that convert into AI CRM Management retainer.

Setup Instructions (Internal — Staff Reference)

To connect Claude to a client sub-account:

- Step 1: Log into the client GHL sub-account → Settings → Private Integrations → Create New Integration → Name it 'ClientVerse AI Operations'

- Step 2: Enable ONLY these permissions to start: View Locations, Edit Calendars, View/Edit Contacts, View Pipelines, View Conversations, View/Edit Tags, View Custom Fields
- Step 3: Copy the Private Integration Token (PIT) — you only see it once. Store securely.
- Step 4: Go to Settings → Business Profile → copy the Location ID
- Step 5: Configure the MCP connection in Claude Code using the GHL MCP server at services.leadconnectorhq.com/mcp/
- Step 6: Run a test command — ask Claude to list the last 5 contacts in the account. If it returns data, connection is live.
- Security: Rotate PIT tokens every 90 days. Never grant all permissions. Never share tokens outside the team.

SECTION 7 — FREE TOOLS TO ADD TO CLIENTVERSE WEBSITE

These attract your exact target client — service business owners with an existing business who want to grow. Each one captures leads and feeds your GHL pipeline automatically.

Tool 1 — Revenue Leak Calculator (BUILD THIS FIRST — Highest Priority)

Visitor enters their weekly missed calls + average job value. Calculator shows their annual revenue loss in real time. At the end: captures name, email, phone → drops into GHL follow-up sequence automatically.

BUILD IN: GHL native survey + calculation tools at zero extra cost.

HOW TO BUILD: Multi-step GHL survey → Step 1: missed calls/week → Step 2: average job value → Step 3: close rate → Display annual loss → Capture contact info → Trigger follow-up sequence immediately.

Tool 2 — AI Readiness Quiz

5-question quiz scores a business owner's AI readiness. Low score creates urgency to buy. High score shows them they're ready for Commander tier. Both paths end in your funnel with personalized follow-up.

BUILD IN: involve.me at \$29/mo. Connect to GHL via webhook.

Tool 3 — Business Credit Score Check (Nav Affiliate)

Nav affiliate link or widget — visitors check their free business credit score. Directly relevant to your target client who needs to know their score before accessing the Lendio funding marketplace inside ClientVerse. You earn affiliate commissions when they sign up.

COST: Zero. **Revenue:** Affiliate commissions.

Tool 4 — ROI Calculator

Visitor enters what they currently pay for their CRM, scheduling tool, follow-up system, and reputation tool. Calculator shows them exactly what they save by switching to ClientVerse. Makes the \$197/mo price feel like a no-brainer.

BUILD IN: GHL native or involve.me.

Tool 5 — Business Name Generator (Content Strategy ONLY — Do Not Embed)

Do NOT embed a name generator tool — it attracts people who don't have a business yet. Instead write a blog post titled: 'After You Pick Your Business Name — Your AI Setup Checklist.' Targets that search term and converts new entrepreneurs into ClientVerse clients before any competitor finds them.

Tool 6 — Microsoft Clarity (Free — Add to Every Client Site)

Free heat mapping and session recording. Zero cost. Add to every GHL snapshot during client onboarding. Clients see exactly how their website visitors behave. Massive perceived value at zero cost to you.

Tool 7 — Tidio Live Chat / AI Bot (Free Tier)

Install on the ClientVerse website itself. Captures leads 24/7 from visitors who are not yet ready to book an audit. Integrates with GHL via webhook. Free plan covers everything you need at launch.

SECTION 8 — SEO / GEO / AEO CONTENT STRATEGY

Three different traffic strategies that compound over time. All organic. All free after the content is written.

8A — SEO (Google Finding You)

GoHighLevel Charlotte NC	Blog — Why Charlotte Businesses Choose ClientVerse	Captures GHL-aware prospects and converts them to your platform

8B — GEO (AI Systems Citing You)

When someone asks ChatGPT, Perplexity, or Google AI Overview 'who is the best AI business platform in Charlotte' — you want ClientVerse to appear. GEO requires:

- Clear authoritative statements — not vague marketing language
- Schema markup (LocalBusiness JSON-LD) on every page
- FAQ sections on every service page — AI systems pull from these directly
- External mentions — local Charlotte press, veteran publications, GHL community forums
- Consistent NAP (Name Address Phone) across all directories
- Detailed About page — founding story, veteran background, cybersecurity credentials

8C — AEO (Answer Engine Optimization)

Build pages that directly answer questions your clients type. Appear in Google featured snippets and AI answer boxes without paying for ads:

Question to Answer	Where to Put It	Outcome
How much does marketing automation cost for small businesses?	Pricing page FAQ	Captures price-shopping prospects
What is the best CRM for service businesses?	Homepage FAQ + blog	Positions ClientVerse as the definitive answer
How do I get my business to answer calls automatically?	AI Voice Agent service page FAQ	Drives direct voice agent inquiries
Is my AI tool secure?	Security page + homepage FAQ	Drives AI Security Audit leads — your cybersecurity moat
How long does it take to set up marketing automation?	Pricing page FAQ	The 7-day go-live answer closes hesitant buyers
What is GoHighLevel?	Blog post explaining the category — positioning ClientVerse	Captures GHL researchers and converts them to your platform

SECTION 9 — THE C.L.A.R.I.T.Y. FRAMEWORK™

This is your proprietary named methodology. Every audit, every blog post, every social post references it. This is what separates you from every other GHL reseller.

The ClientVerse AI Stack Audit™ uses the C.L.A.R.I.T.Y. Framework — a 7-point evaluation system that maps every gap in a business's AI stack to a specific, executable fix.

Letter	Stands For	What You Evaluate	What You Deliver
C	Consolidate	Which AI tools overlap or duplicate each other — money being wasted on redundant software	A clear list of tools to cut immediately
L	Leak	Which manual processes are bleeding hours that AI could handle — the hidden labor cost	Quantified time and revenue loss per week
A	Automate	What to fix first for maximum ROI — the highest-leverage automation opportunities	A prioritized 90-day automation roadmap
R	Revenue	Where AI directly impacts close rate, lead response time, and follow-up consistency	Revenue recovery estimate based on their numbers
I	Integrate	What systems should connect to each other — the broken handoffs costing leads	Integration map showing exactly what connects to what
T	Trust	Security gaps in their AI stack — exposed data, weak access controls, staff vulnerabilities	Written risk report with prioritized fixes
Y	Yield	The projected ROI of each recommended fix — what they get back for every dollar invested	ROI projection used to justify every recommendation

Use this framework in every AI Audit. Reference it by name in every piece of content you publish. File a trademark application. This is your moat.

SECTION 10 — PASSIVE REVENUE + ADVANCED BUSINESS STRUCTURE

10A — Passive Revenue Streams

Stream	How It Works	Revenue Potential	Setup Required
GHL Affiliate (40% recurring)	Every non-ready prospect gets your affiliate link instead of being lost	\$38–198/mo per referral — forever	Sign up at gohighlevel.com/joinaffiliate — 10 minutes
GHL Bonus Tier — 50 referrals	\$750/mo cash bonus added on top of 40% commissions	\$750/mo extra at this milestone	Automatic when you hit 50 active referrals
GHL Bonus Tier — 75 referrals	\$1,300/mo cash bonus added on top of 40% commissions	\$1,300/mo extra at this milestone	Automatic when you hit 75 active referrals
Tier 2 GHL Affiliate	5% of commissions from YOUR referrals who also become affiliates	Scales with your referral network	Automatic — built into GHL affiliate program
ClientVerse Business Academy	Monthly community membership at \$47/mo standalone or \$97/mo for resellers	100 members = \$4,700/mo from non-platform clients	Build first module in GHL Memberships. Takes 1 day.
Industry Snapshots	One-time digital product sales at \$297–997 each. Build once, sell unlimited.	\$497 per sale with zero fulfillment after build	Build in GHL, create sales page, list on website
ClientVerse Referral Program	Your clients refer other businesses and earn commissions tracked inside GHL	Compounds MRR with zero outbound effort	Set up in GHL Affiliate Manager — 1 hour
NMI Payment Processing	0.05–0.25% of every dollar your clients ever process — forever	Compounds dramatically at scale	Apply at nmi.com/partners ISO program
Financial Partner Residuals	Monthly residuals from Relay, BlueVine, Gusto, Nav referrals	\$150–300 per banking referral	Apply to all partners in Section 4

10B — Advanced Business Structure

ClientVerse Capital LLC

Form a separate LLC to handle all financial partner routing, referral income, and embedded fintech revenue. Costs \$200–500 to form. Separates the fintech income layer from the SaaS operating business. Makes the company easier to value and exit at a higher multiple.

IP Holding Company

Form a second LLC to own your proprietary frameworks — C.L.A.R.I.T.Y.™, SAIG-OS™, and any future named methodologies. This LLC licenses the frameworks back to ClientVerse. Separates intellectual property from operating risk and creates a licensable asset that can generate revenue independently.

Equity Client Deals

For high-potential clients who cannot afford your fees upfront, offer to take 5–10% equity in their business in exchange for full AI implementation. You become a stakeholder in their growth. When they succeed, you succeed. Reserve this for clients you believe in strongly.

Agency Roll-Up Acquisitions

Identify struggling GHL agencies who cannot retain clients or scale. Acquire them for 1–2x MRR. Fold their client base into ClientVerse. The acquired clients now pay your higher rates. The acquired operator optionally becomes a ClientVerse certified reseller. This is how you go from 50 clients to 200 clients in 90 days.

GSA Schedule + Federal Contracts

Your SDVOSB certification qualifies you for the GSA Schedule — a federal contract vehicle that lets government agencies buy from you without a full procurement process. Pair with SAM.gov registration (NAICS: 541511, 541519, 541613). Federal contracts start at \$1,500/mo and scale to \$50,000+/mo for agency-wide deployments. This is a 12–18 month play but the paperwork starts now.

SAIG-OS as a Standalone Product

Your AI Governance framework sells independently to nonprofits, healthcare organizations, education institutions, and small businesses who need documented AI oversight for legal protection. Pricing: Foundation \$1,500–3,000 one-time. Standard \$3,500–7,500/year. Oversight \$7,500–15,000/year. You deliver this personally. No outsourcing. Zero competition.

SECTION 11 — GHL STAFF MASTERY PATH

Every person who touches a client account must complete their level before working independently. This is not optional.

Level 1 — Foundation (Everyone on the Team)

Topic	What to Learn	Where to Learn	Mastery Test
GHL Navigation	Every menu item — CRM, Conversations, Calendars, Marketing, Sites, Funnels, Payments, Reporting	help.gohighlevel.com + GHL YouTube channel	Navigate to any feature in under 30 seconds without help
Contact Management	Add, edit, tag, segment contacts. Smart lists. Import from CSV.	GHL YouTube channel	Import 20 test contacts and create a smart list tagged as HVAC
Pipeline Management	Create pipelines, stages, opportunities. Move deals manually and automatically.	GHL support articles	Build a 5-stage sales pipeline from scratch with automations
Calendar Setup	Create calendar types, set availability, add booking questions, connect Google Calendar	GHL YouTube	Set up a Revenue Audit calendar that books 30-minute calls with confirmation email
Conversations Inbox	Manage SMS, email, Facebook Messenger, Instagram DM, WhatsApp all in one inbox	GHL support portal	Send test SMS and email from a client sub-account and reply from inbox

Level 2 — Automation (VA and Operations Staff)

Topic	What to Learn	Mastery Test
Workflow Builder	Build workflows from scratch — triggers, actions, conditions, time delays, branching. Use AI Decision Maker inside workflows.	Build a missed call text-back workflow that sends SMS within 60 seconds and adds contact to a follow-up pipeline
Reputation Management	Set up review request automations. Connect Google and Facebook. Monitor and respond to reviews.	Set up a post-appointment review request that sends 24 hours after job completion
Email + SMS Campaigns	Build broadcast campaigns, drip sequences, and smart list triggers	Build a 5-email welcome sequence for new ClientVerse clients
Forms + Surveys	Build intake forms, audit questionnaires, and survey-based calculators	Build the Revenue Leak Calculator in GHL surveys
Snapshot Deployment	Import and deploy industry snapshots into client sub-accounts	Deploy an HVAC snapshot into a test sub-account in under 15 minutes

Level 3 — Advanced (Senior Staff Only)

Topic	What to Learn	Mastery Test
Agent Studio / AI Employee	Build AI voice and chat agents — training data, personality, escalation paths, GHL integration	Build a fully functional AI receptionist for a test HVAC business that books appointments and handles FAQs
Lead Intelligence	Use GHL map-based lead import to pull local businesses by city and zip code	Import 100 local businesses in a target niche into a GHL pipeline in under 10 minutes

Topic	What to Learn	Mastery Test
SaaS Mode + White-Label	Configure SaaS mode — custom domains, white-label settings, client portal branding	Set up a fully white-labeled ClientVerse sub-account with custom domain and zero GHL branding visible
Financial Partner Activation	Activate Lendio, Relay, BlueVine inside GHL — configure eligibility triggers	Activate all three financial partners and build a workflow that proactively offers funding to eligible clients
Affiliate Manager	Build and manage ClientVerse referral program — commissions, tracking, portal setup	Launch ClientVerse Referral Program with working portal, commission tracking, and client invite sequence

SECTION 12 — MASTER ACTION CHECKLIST

Do these in order. Check each one off. Week 1 is all free signups that unlock revenue before your first client.

WEEK 1 — Free Signups (Zero Cost — Do All of These)

STEP 01 GHIL Affiliate Program

gohighlevel.com/joinaffiliate — get your referral link — add to email signature, LinkedIn bio, website footer. Every non-ready prospect earns you 40% recurring forever instead of being lost.

STEP 02 Relay Partner Program

relayfi.com/advisor-partner-program — easy agency approval — \$150–300 per client you refer. Done in 10 minutes.

STEP 03 BlueVine Partner Program

bluevine.com/partner — select 'Technology Provider' on application — \$200–300 per qualified referral.

STEP 04 Nav Affiliate

nav.com/partnerships — select 'Affiliate' — instant signup. Adds a financial referral stream and a client credit monitoring benefit.

STEP 05 Lendio Embedded Financing

lendio.com/embedded-financing — submit partner inquiry — mention veteran-owned SaaS platform serving service businesses in NC. Enables \$5K–\$5M loan referrals inside your dashboard.

STEP 06 Synchrony — Formalize Your Relationship

Contact your Synchrony rep directly — get referral/partner agreement in writing with commission structure documented. This is your existing moat. Lock it in immediately.

STEP 07 EmbedMyReviews

embedmyreviews.com — \$99/mo flat — covers reputation management for every client you ever sign. Best deal in the entire stack.

STEP 08 Apollo.io Free Trial

apollo.io — start free trial (50 free credits/mo on free plan) — pull 1,000 local business leads in your target niche — import into GHL. This is how you get your first clients with zero ad spend.

STEP 09 Google Business Profile

business.google.com — create ClientVerse business profile — Charlotte, NC — add all services, photos, and a description with your veteran background. Free local search visibility within 30 days.

STEP 10 SAM.gov Registration

sam.gov — register ClientVerse — add NAICS codes 541511, 541519, 541613. Required for any federal contract. Free. Takes 2 weeks to activate.

WEEK 2 — Vendor Relationships (Most Critical)

STEP 11 Extendly

extendly.com — sign up at \$999/mo — this is the most important vendor signup in the entire playbook. Unlocks unlimited GHL technical delivery without you touching the setup. Do NOT take clients before this is active.

STEP 12 Porter Metrics

portermetrics.com — start at \$15/mo — set up white-label reporting dashboard. This is what you show clients to justify your fees and prove ROI.

STEP 13 Feedbird

feedbird.com — sign up — \$99/mo per client for social media content. Activate when your first client needs social media management.

STEP 14 DashClicks

dashclicks.com — create agency account — covers white-label website builds AND SEO delivery. Use when clients need a full custom website.

STEP 15 CallRail

callrail.com — sign up — add call tracking to your standard onboarding. Clients see their call data — justifies your fees every month.

WEEK 3 — Financial Layer Expansion

STEP 16 Wisetack

wisetack.com/partners — apply — killer for HVAC, contractor, and med spa clients. Finances customer jobs they can't pay upfront. You earn revenue share on every financed job.

STEP 17 Brex

brex.com/referrals — apply for referral program — good for tech-forward clients who need business credit cards.

STEP 18 Fundbox

fundbox.com/partners — apply — best for B2B service businesses waiting on invoices. Invoice financing referral commissions.

STEP 19 Gusto

gusto.com/partners — apply for Pro Partner — \$100–200 per client plus ongoing monthly residual. Apply now, activate when you have 5 referrals ready.

STEP 20 NMI Payments

nmi.com/partners — apply for ISO program — 0.05–0.25% LIFETIME residuals on every transaction your clients process. This pays forever.

STEP 21 Windsor.ai

windsor.ai — sign up — add to your reporting stack for clients running paid ads. Charge as attribution reporting add-on at \$97–197/mo.

MONTH 2 — Products + Authority

STEP 22 Build Revenue Leak Calculator

Create multi-step GHL survey that calculates annual revenue loss from missed calls. Capture name, email, phone. Trigger follow-up sequence. This is your #1 lead gen tool and costs nothing.

STEP 23 Build First Industry Snapshot

Build a fully configured GHL setup for HVAC companies — pipelines, automations, review requests, follow-up sequences. Save as snapshot. Create sales page. List at \$497. First of many passive digital products.

STEP 24 Launch Business Academy

Create first module in GHL Memberships — 'This Month in AI: What Service Businesses Need to Know.' Set at \$47/mo. Hire Upwork VA to produce monthly technical video. Record one video yourself — the veteran perspective. Launch to your network.

STEP 25 Build ClientVerse Referral Program

GHL → Marketing → Affiliate Manager — set commission at 10–15% of first month MRR per referral — create affiliate portal — add referral program to client onboarding on Day 7.

STEP 26 Name + Publish C.L.A.R.I.T.Y. Framework

Write the framework page on your website. Use it in every audit. Reference it in every blog post. File trademark application. This is your authority moat.

STEP 27 Write First 5 SEO Blog Posts

Use the search terms in Section 8. Write 1,000–2,000 words each. Answer the question directly. Include FAQ section. Add schema markup. Publish on ClientVerse blog.
